

FORT BRAGG POLICY OR PRECEDENT

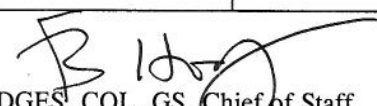

(Ft Bragg Memo 25-50)

1. SUBJECT Referring and Processing for Administrative Separation of Soldiers with Driving While Intoxicated (DWI) and/or Drug Positive		2. MASTER POLICY NO. 105
3. ORIGINATOR IMSE-BRG-MWD	4. PHONE NUMBER 396-4100	5. DATE ESTABLISHED 4 October 2006

6. SYNOPSIS: (if more space is needed, use reverse side.)

- a. Purpose. To establish installation policy for referring and processing administrative separation with a Driving While Intoxicated (DWI) and/or illegal drug positive.
- b. General. Alcohol and/or other illegal drug incidents are significant health hazard and counterproductive to Soldier and unit combat readiness.
- c. Policy.
 - (1) In accordance with AR 600-85, Chapter 3-7, company commanders are required to refer soldiers who have a DWI/Illegal drug positive/offense or other substance abuse incident to their local Army Substance Abuse Program (ASAP) treatment clinic for a medical screening. The referral should occur within four working days of formal notification of the incident by Military Police (MP) blotter and/or the Fort Bragg Army Substance Abuse Program (ASAP) lab notification.
 - (2) A quick referral to the local ASAP treatment clinic is critical in providing Soldiers a timely medical triage and an in-depth biological/psychological/sociological evaluation. The triage and evaluation will fully assess the Soldier's alcohol and/or drug problem and their potential impact on readiness.
 - (3) Soldiers with two separate alcohol offenses will be processed for administrative separation.
 - (4) Any Soldier who abuses illegal drugs must be processed for administrative separation to the separation authority. Soldier may be retained, but the separation authority must make the decision.
 - (5) Abuse of illegal drugs is a serious misconduct. Commanders will flag the personnel records of Soldiers who test positive for or who abuse illegal drugs IAW AR 600-85, appendix B, paragraph B-6.

11. DIRECTIVE ON WHICH BASED (Show date, subject, and origin.)

AR 600-85, Army Substance Abuse Program.

12. DISTRIBUTION A	13. DATE PUBLISHED 16 NOV 2006
----------------------------------	--

SUBJECT: Referring and Processing for Administrative Separation of Soldiers with Driving While Intoxicated (DWI) and/or Drug Positive

(6) Commanders must utilize the Urine Surveillance Program for Soldiers enrolled in the ASAP to ensure the Soldiers' rehabilitation is progressing. The ASAP Urine Surveillance Program is an excellent commander's tool that allows a commander to monitor the results of enrolled Soldiers' weekly drug tests which are conducted over an 8 - 12 week period.

d. Additional Resources.

(1) Company commanders and first sergeants can expand their ASAP knowledge by visiting the following websites:

(a) The Fort Bragg Risk Reduction (ASAP) website,
<http://www.acsap.army.mil/>.

(b) The National Institute on Alcohol and Alcoholism (NIAAA) website, www.niaaa.nih.gov.
